

Homemade Playdoh Recipe

A homemade playdoh recipe that won't your hands dry from all the salt and smells amazing!

Ingredients

- 2 1/2 Cups Flour
- 2 Tablespoons Cream of Tartar
- 1/2 Cup Salt
- 2 Cups Boiling Hot Water
- 2 Tablespoons Oil
- Food Colouring

Instructions

1. Place water and salt in a saucepan, bring to a boil.
2. In a large bowl or food mixer (it makes life easier!) add flour and cream of tartar.
3. VERY CAREFULLY pour boiling water to the flour mixture and stir.
4. Allow to cool for 3-5 minutes.
5. Separate the dough into half, thirds or fourths (depending on how many colours you are making with 1 ball of dough) and place into separate bowls.
6. Add in food colouring into each bowl and stir.
7. If you are using a food mixer attach your kneading tool and knead each colour for about 5 minutes. If not using a mixer flour a flat surface (I do a cutting board) and knead each colour for 5-7 minutes. The dough may be sticky and you'll want to add a TBSP of flour at a time until you get the consistency that you'd like.

You can store these in an air tight container for months! I have my girls play with their playdough outside so that it avoids the ground in playdough in my carpet!
