The Four <mark>Seasons</mark>	
autumn	winter
September	December
October	January
November	February
spring	summer
March	June
April	July
May	August

Key vocabulary	
Seasons	There are four seasons each year, spring,
	summer, autumn and winter.
Spring	In spring the weather starts to get warmer. The
	leaves begin to grow on the trees and some
	trees may blossom (have flowers). The day
	times start to get longer.
Summer	In summer, the weather gets hotter. The
	daytime is long and the nights are short.
	Summer has the longest days.
Autumn	In autumn the weather begins to get colder.
	The leaves start to fall from the trees. The
	amount of daylight becomes less. This means
	the daytimes are shorter and the night times
	are longer.
Winter	In winter, the weather is much colder.
	Sometimes it is cold enough to freeze, leaving
	frost and ice on the ground. It sometimes snow.
	The daytimes are the shortest in the year and
	the night times are the longest.
Weather	The weather includes the temperature outside,
	the wind direction and strength, as well as rain,
	cloud, snow and sun.
Daylight	Daylight is when it is light outside. The amount
	of daylight changes with each season.
