Dear Parents/Carers

I am delighted to inform you about a new project that we will be undertaking as a whole school and it's launch this Friday.

This year, we will be thinking about eight different skills that we would need to achieve our goals now and in the future, into adulthood. To help us with this, we will be working in partnership with a strategy called Skills Builders, learning how to become effective listeners, team players, presenters, problem solvers and leaders, all whilst aiming high, being creative and staying positive through challenges.

This Friday, the whole school will be taking part in Operation Moonbase. The day-long project will challenge the children to think creatively, problem solve and work as a team.

As part of the project, we will be building a new Moon Base and therefore need junk modelling. Please could you send in any cereal boxes and other cardboard by Friday.

Finally, we would love for as many parents as possible to come along and get involved. After a morning of planning, the children will be building their models after lunch. If you are able to come along and help, please come to the main reception at 1.30pm and you will be shown to your child's class. Be prepared to get messy!

Many thanks for your support

Mrs Cook

Skills Builder Leader
