What Is Graffiti?

Graffiti is writing or drawings scribbled, scratched, or sprayed secretly on a wall or other surface in a public place. It is generally considered to be vandalism. Vandalism is a crime and vandals can be punished.

Vandalism is the deliberate destruction of belongings or property.

Who is Banksy?

Banksy is originally from Bristol, England. He was part of the Bristol underground art scene, and he was inspired by the graffiti artist called 3D.

Banksy first started working as a freehand graffiti artist in 1990 and continued until 1994. He met a photographer called Steve Lazarides, who began selling his art for him. Steve then became Banksy's agent, which means he arranged exhibitions.

Voicing His Opinion

Banksy uses his art to give his opinion on events that are happening in the world. He is known as a political activist. The graffiti he paints shows what he thinks. The most common themes are his views on greed, poverty, despair, the obsession with celebrities, the government and war.

Graffiti artists have a 'tag', which is like putting a signature on their work.

Technique

Banksy uses stencils to create his artwork. He draws an outline onto card or acetate sheets and then cuts the shapes out by hand. He then uses spray paint on the stencil to create the graffiti.

Banksy has said that before he used stencils, he was very slow at painting, so he often got caught or didn't finish a piece at all.

Some graffiti artists think it is cheating to use stencils. They prefer to paint freehand.
