Key vocabulary	
Seasons	There are four seasons each year, spring, summer, autumn and winter.
Spring	In spring the weather starts to get warmer. The leaves begin to grow on the trees and some trees may blossom (have flowers). The day times start to get longer.
Summer	In summer, the weather gets hotter. The daytime is long and the nights are short. Summer has the longest days.
Autumn	In autumn the weather begins to get colder. The leaves start to fall from the trees. The amount of daylight becomes less. This means the daytimes are shorter and the night times are longer.
Winter	In winter, the weather is much colder. Sometimes it is cold enough to freeze, leaving frost and ice on the ground. It sometimes snow. The daytimes are the shortest in the year and the night times are the longest.
Weather	The weather includes the temperature outside, the wind direction and strength, as well as rain, cloud, snow and sun.
Daylight	Daylight is when it is light outside. The amount of daylight changes with each season.
